Dear Pete Buttigieg, sometimes acting as SECRETARY of the DEPARTMENT OF TRANSPORTATION D-U-N-S number: 057366221, and Shoshana Lew sometimes acting as Executive Director for the [Colorado] Department of Transportation, *D-U-N-S 877985977*,

This is First Notice in American Common LAW. Three Notices that are not rebutted stand in Public LAW [Biblical two or three witnesses standing in truth]. An un-rebutted statement in the form of an affidavit stands as truth in commerce. This statement in the form of an affidavit as Notice serves multiple purposes:

1. Education and delivery of information to inform you that the living people of Colorado know the truth and that you are now being served an affidavit to make you responsible for knowing said truth.
2. My standing as an outdoor broadcast operator in the tradition of Paul Revere as a Colorado State National.
3. Fraud compromising miles of roads [highways] and interstates based on the Pacific Railroad Acts.
4. A Proposed remedy to the fraud.

Education

1. In 1302 Pope Boniface [sovereign] put the entire world into a trust [dead jurisdiction] thus beginning the organization of rules between nations in separate jurisdictions of Land, Air, and Water, [LAW], as per

Biblical reference to the LAW of kinds. Man being alive, cannot live in the air [gravity kills], or in the water [we breathe air]. The soil is the only living jurisdiction and represents the top 5 inches of Land. The Land is the dead national jurisdiction that allows the living to interact with the dead jurisdictions of the Air and Water. Our founders specifically organized our government under the LAW of kinds to prevent the kind of criminal acts taking place today. The British King [sovereign but only king over the Pope's commonwealth land] was given control of the Water [admiralty, maritime] and the Spanish King [sovereign] was given control over the Land through Land Patents [Inquisition]. The Pope retained control over the Air [Ecclesiastical/Canon]. This explains the need for three treaties following the Revolutionary War for Independence. The Treaty of Versailles was for the Land [diplomatic instruments at the time were written in French]. The Treaty of Ghent was for the Air. The Treaty of Paris was for the Water [the English sovereign is referred to as Prince as overseer (second in command) of the Pope's commonwealth Land interests]. The power sharing agreement allowed the living to retain their sovereignty in their own right from the Belle Cheres clan [American lineage] and Land Barons of England reflected in the Magna Carta. The power sharing culminated in three federal subcontractors to do international business on behalf of the nation States. The 1787 Constitution "For" The States of America was the organic, unincorporated Land organization contractor that went "missing" during the Civil War. The Territorial Constitution "of" 1789 delegated services to a Scottish Corporation, doing business as the United States. The delegation was for the navy specifically to defend on the high seas and inland waterways under the Title IV flag. The 1790 delegated services [postal] was for the MUNICIPAL UNITED STATES in the District of Washington and was to be a place for all governments to meet as per the contractor for the Pope in the District of Columbia. The Territorial and MUNICIPAL corporations have been interdependent as of the Declaration of Interdependence in 1937. Note both the foreign subcontractor Constitutions use the preposition "of" meaning without the United States in trust LAW.

2. Multiple secret treaties of Verona were signed between sovereigns, including the Pope and King [not a monarch since 1097 but rather CEO of the Commonwealth properties on behalf of the Pope] were sealed to infiltrate the American government and sovereignty on the Land and soil [CONGRESSIONAL RECORD – SENATE., 64th CONGRESS, 1st SESSION, VOLUME 53, PART 7, Page 6781, 25 April 1916]. Letters of Marque and Reprisal were issued to the members of the Bar Association commissioning them to act as privateers and offering them protection [excluded from registration with foreign titles of nobility]. This was not reversed until July 11, 2013 by the "Motu Proprio", issued by Pope Francis and sent to all District Courts. The corporate veil no longer protects unLAWful acts from being prosecuted. All fictional business entities tie back to the intellectual property of the Holy See and prosecution through the Vatican Chancery Court.
3. Our forefathers reacted to the discovery of the plot against the States by ratification [by States] of the 13th Amendment to the 1787 Constitution [<https://tinyurl.com/357vn8cm>].
4. Corporations are dead fictions in international jurisdiction of the Air. They are the intellectual property of the Holy See. Sovereign men and [wo]men can only be subject to corporations by contract [like BIRTH CERTIFICATE, driver's license, Form 1040] because dead thoughts have no jurisdiction over living sovereigns. This is why we are dragged into dead jurisdictions at birth [criminal act of personage] through birth certificate and assignment of social security number. We spend our lives in agreement of our political status as "US Citizens" in Air and Water jurisdictions with our acquiescence and wet stamps on registrations and licenses. We have also been defined by Congress to be dead assets of corporations as "legal persons" under the 14th Amendment and subject to public slavery.

5. Anna Maria Riezinger as fiduciary and James Clinton Belcher as Head of State for the unincorporated united States for America, have successfully established standing [maxim of last man standing] to be heard before the Vatican Chancery Court as living men and [wo]men since the unincorporated government was declared interregnum following the Civil War. AMRI00001RA393427640 US Minnesota is the Indemnity Bond that allows me born in Minnesota to address issues in commerce and Air jurisdiction as my birth State. Any corporation and government service provider harming the living can now be forced into liquidation. This includes chartered corporations and sub-corporations like the DOT.
6. The same principle was used to stand up and call to session Assemblies in all fifty States [not district assemblies].
7. The STATE OF COLORADO is just a STATE OF STATE CORPORATION. Article IV Sec 3 Clause 1 of Admission to the Union in the Constitutions require the legislatures of the unincorporated US to ratify the admission. THE STATE OF COLORADO, having been approved under the 1789 Territorial Constitution as delegated power granted under Article IV Sec 3 Clause 2, is an inchoate state and not a land state populated with living approved by State Citizens under Clause 1. Your Supreme Court has ruled that the US is nothing more than a corporation like Wal-Mart. In *Clearfield Trust et al v. United States* 318 U.S. 363 (1942) the federal government service providers are a dead fiction(s), having no authority over the living [LAW of kinds]. US Citizens are literally foreign dead assets non-domestic to the Land/soil they are heir to. We must publically declare our political status to reclaim our birthright and protection from the foreign service providers, which are under contract by the Constitutions, treaties, and LAW of kinds described.
8. Corporations [dead international jurisdiction of commerce] cannot own Land in Colorado unincorporated. Foreign dead assets and corporations are only allowed on the Land/soil by the Residence Act of 1790. It is only now that the Assemblies of the States have been called to rebuild the unincorporated united States, including our American Common LAW. The rebuilding has never been complete following the Civil War, which was really just a mercenary conflict with no peace treaty. Endless wars have been used to justify the filling of the vacancy in Land/soil jurisdiction once disbanded for lack of quorum. We have been declared interregnum for the last century and a half.
9. By my public declaration of political status [e-verify.americanstatenationals.us], claim to be under duress, and my request to be removed from voting rolls, I claim my birthright and inheritance to the Land/soil as a Colorado State National (not to be confused with the oxymoron sovereign citizens). We are not subject to Private corporate LAW (admiralty/maritime). Statutes and civil LAW only apply to dead assets, employees, and citizens of the dead corporation. We are heir to Land Patents. The Colorado Assembly's recognition by the Vatican Chancery Court and Notice to STATE OF COLORADO POLIS is sufficient to invoke *Ex parte Milligan*, 71 U.S. (4 Wall.) 2 (1866). Your private LAW and military courts as "Districts" and MUNICIPAL collection centers have no jurisdiction over me or my trade on the Land/soil. It is your responsibility under the heading and Biblical LAW [Res 487 making 1983 year of the Bible] to Notice Principals and Agents. Under service of this Notice, your corporations cannot claim Last Court Standing to hear issues resulting from claims within this Notice. The movement to return to the soil is recognized internationally, is guaranteed by treaties, and is the intention of the founders of this country. By your own Army's manual, LAW of Peace, you are required to honor our standing. We are at peace and are not combatants.

10. Abraham Lincoln was President of a corporation, not the unincorporated United States. He was an esquire and could not be President under Amendment 13. He suspended the Constitution and began executive orders with the Lieber Code, which is unconstitutional to the Land/soil. There was no declaration of war to engage by carefully firing on Fort Sumter as an inland waterway in Water jurisdiction to deceive the public into believing the conflict was on Land/soil. The illusion of a war was a mercenary conflict between foreign corporations acting as service providers. The public has been tricked into military districts and contracts for reparations ever since. In fact, government offices which used to display the civil, peace flag, have been flying the Title IV war flag ever since to continue the deception.

Standing as an Outdoor Broadcaster

11. I worked in the outdoor advertising industry for many years and operated a sole proprietorship in Caldwell, Idaho. I did not have knowledge of the extent of the crimes against the population described above until I discovered the LAWful living movement to restore peace and our rights through the unincorporated Assembly of Colorado and Federation of States. I have returned as a broadcast operator [unincorporated] to ensure that truth prevails, and that the outdoor broadcast space is utilized and preserved for the use by the population. I claim my inalienable rights under God to the Land as Last Man Standing. My claims with my wife, Kimberly Ann Peer, include in part the Biblical principle that a man is worthy of his wages. This claim has value in labor and is specific to the claims attached to this Notice.
12. I became a Colorado State National in July of 2022. As such I am not subject to the Highway Beautification Act or any statutes limiting the use of outdoor broadcasts and speech appropriate to the population. My link above and a search of COUNTY OF FREMONT records will yield my corrected political status. A link to these documents in your billboard inventory should exclude any broadcast structures on the Land from billboards subject to the Highway Beautification Act [your private, corporate LAW]. Since the STATE OF COLORADO is subject to loss of ten percent of its highway funds under said Act for noncompliance by corporations, legal persons, and employees of the Federal government service providers, I will Notice each local DOT of my intent to use any existing structure, Combolisk [my trade name described below], or broadcast structure operated from a Land interest. This way these broadcast locations can be excluded from an inventory of legal, grandfathered, or illegal off-premise billboards subject to said Act or local codes and statutes. Failure to rebut this Notice shall be sufficient for any local STATE OF STATE or sub-corporation chartered as a local government service provider to refute claims by the Federal DOT regarding jurisdiction. Land/soil Trade agreements and broadcast structures are private on Land/soil and are not subject to any foreign government service provider contract in Admiralty/Maritime Water jurisdictions or any other LAW.
13. I trade named the term Combolisk [everify], combining the Greek Obelisk inherent to Land and the word community to form a new term for digital outdoor broadcast structures. In part, the use of the name requires displaying a free message and up to five sponsors, the use of the broadcast space rotated twice before another free community message. The Combolisk trade name use is restricted to State Nationals. The preferred method is to utilize Land parcels that have been returned to Land Patent status, as opposed to deeded use, to prevent any idea of jurisdiction by government service corporations. Use of said name also requires listing on Combolisk.org so you can identify use of the name and prevent penalty of use of similar commercial billboards under said Act. My stated Duress as a broadcast operator

also allows me the use of or conversion of traditional static outdoor broadcasts [on/off premise] from your jurisdiction . In this method a static structure will have a two sided copy draped over a structure. One side will be a sponsor with a revenue stream to support the broadcaster [State National]. The other side will have free community copy. The faces will be rotated. Even if you were to claim jurisdiction under a Land Deed for any existing structure on a property, the whole premise of billboard control is to promote the value of beauty. Control over copy covering a grandfathered, or even abandoned use has no bearing over a structure that exists. **Read v Gilbert** clearly indicates that government must prove value to jurisdiction over speech. If the government fails to fund the removal of a legal or lawful structure, it has no basis for limiting any reclaimed use of said structure with active copy that includes a nonprofit and/or private use by a living broadcaster as a livelihood [see Declaration of Independence].

14. As a Colorado State National, I maintain a CDL to operate in commerce. I do not currently operate in commerce as a commercial driver. I limit my acceptance to be regulated as a commercial driver while employed as a commercial driver and actively driving.
15. GOVERNOR POLIS of the STATE OF COLORADO has already been Noticed regarding a fee schedule for the misidentification of Colorado State Nationals. You may find a copy on Combolisk.org or through the eVerify link above. I have a schedule there now as well.

Railroad Fraud

16. I began a search for a Combolisk location. I was led to the HIGHLINE COMMUNITY CHURCH along I-25 in COUNTY OF ARAPAHOE, STATE OF COLORADO. I researched the chain of title for this parcel like as this is a first step in reclaiming the underlying Land Patent. This is the same process Nationals returning to the Land/soil will use to declare their allodial right to Land. My search indicated the US granted Union Pacific Railway Company, (UP), or its successor Union Pacific Corporation holding company via completion and approval of the Pacific Railroad Act as the Section [21] containing the church. Said Act granted in part, odd sections of Land for approved as completed miles of track. The grant was subject to inspection and approval by a commission under said Act. On 2/25/1897, Land Patent #39, was granted from the US to UP [bankrupt]. The Union Pacific Corporation is the presumed receiver as it absorbed the former UP. The former name was listed and is lost/missing at sea since no record exists of the use by the COLORADO SECRETARY OF STATE.
17. Although bond fraud had been reported [Credit Mobilier scandal of 1872] and UP went bankrupt, there appears no mention or resolve of the fact that UP sold Sections 21 [church], 25, and 27 of Township 5 West Range 67 South from the 6th Prime Meridian, Arapahoe County, Colorado (and possibly other counties or even states) to Rufus Clark in 1891, with a contract to buy years earlier. This is fraud since said sections had not been granted since their original grant to the United States. The last instrument to complete the grant of land to UP was not made until 1901 [Patent 61]. Rufus Clark sold section 21 [still belonging to the people] to DENVER ARAPAHOE IRRIGATION COMPANY, (DAIC), which also went bankrupt before the first Land Patent was issued to UP relating to the described Rufus Clark sale. Fraud vitiates everything including the sales before grants. There is no appearance or resolve in the record for the sales made before the grants. UP did not complete a rail sufficient to the needs of the US before the expiration of the timeline of the original Act [7/1/1876 deadline]. The expectation was that all property, materials and rail be returned to the US for breach of contract by Act. The issues remained unresolved

until this year when my wife and I made claim to the assets lost at sea. We made claim in all three jurisdictions and provided Notice and publically presented our claims. Please see E3047239 or link in item 20. We included a trade name claim of the name of the former UP now doing business as Combolisk to complete the Act as a railroad does exist for the use of the people so claim under the unincorporated trade name is warranted as payment for said rail line. Our public LAW to resolve and expose the fraud was the last piece before restoring the Land/soil to the heirs with our claim to wages.

18. The successor UP issued a DISCLAIMER on the record 6/28/1982, R2185423 Book: 3659, Page: 669, indicating UP had no interest in the Rufus Clark Sections because said Sections were sold in 1891. The described Rufus Clark Sections were granted in the name of the lost UP but not beginning until 1897 and completing until 1901 creating fraud in the chain of title. Neither UP or Rufus Clark had any interest in the Land when Section 21 [or 25, 27] was sold, sold again, and ended up in the chain of title of another corporation out of a bankruptcy court before said Sections were granted to UP. The fiction arising out of bankruptcy court sold half interest of Section 21 to yet another party and those two parties created the fictional Clark Colony Section 21 subdivision without the chain of title issue being resolved. The new UP did nothing to expose the land fraud. Presumably the actual grants to the former UP were presented to the new UP and recorded without a DISCLAIMER by the US that the former UP was lost at sea and that said Grants were being delivered to the new UP. The grants describe other consolidation of fictional entities but do not name the new UP. The new UP had a fiduciary responsibility to inventory the sections in the grants and to report of their status. This perpetuated the fraud as the record indicates the Rufus Clark Sections and other Land researched in Arapahoe County were never resolved or even discovered through either bankruptcy of UP or DAIC. Ex post facto LAW prohibited by the Constitutions would have been the only remedy to fix the issue without removing the sales from the Land record. The current UP must have known as the record would have indicated a resolve prior to DISCLAIMER. UP did not refute our claims creating further harm if it did know and tried to hide the fraud. UP had a fiduciary responsibility to admit the DISCLAIMER as false if it had any knowledge of the crimes or received the original Land Patents for the Sections described. UP's acquiescence and our recorded claims as public LAW stand as the only available remedy.
19. Rufus Clark was a large landowner of what is now Denver metro and much of his land became Clark Colony subdivisions. Said Section 21 was subsequently divided as part of the Clark Colony in 1903. Those parcels are the subject of the Interstate-25, (I-25), project from Orchard Road to Arapahoe Road. Said Section 27 contains I-25 from Arapahoe Road to County Line Road.
20. Three Notices of claim were made to UP by myself and my wife for salvage of Section 21 [and resolution for all UP Land sold by fraud]. Three unrebutted affidavits stand in American Common LAW and commerce. We also noticed the Colorado Assembly and the Federation representing all fifty States to make all known living heirs to the American Land Patents aware of our claims. There has been no challenge to any claims. Unlike the Constitution(s) that prevent ex post facto LAWS, we are able to grant all UP Land and return all unused parcels to use by the living. Please see our recorded Notices for further details [Please see instrument number E3047239 COUNTY OF ARAPAHOE for more information or on the Land recorder at eVerify.americanstatenationals.us Co23-2023-58321-Gr149].
21. We reduced the amount of claims to UP lands to the Section 21. This greatly reduces the exposure against title insurance to a single section and is beneficial to everyone as Land is returned to State Nationals with allodial title. Acquiescence as stated in the header is agreement. Those remaining on the

claimed Land including fictional entities with interest in utilizing our Section 21 for continue use, are subject to our trade agreement. Our agreement by this Notice is to remain in Land/soil jurisdiction. We plan to Notice the local title companies to discount their exposure even further before Noticing non-government residents. As billions of dollars in fraud are averted and discounted we provide remedy for residents to convert to State Nationals and trade with us, rent from us as Landlords [legal fictions], or leave the Land [making independent claims against title insurance] we now claim allodial interest in. Our remedy is noncombatant and reserves payment for our work to expose the fraud. Each party has a fiduciary responsibility to honor the Public LAW of the living and reduce the fraud for the benefit of the living. This includes the use of the Land for the Combolisk Project to help spread the truth through outdoor broadcasts as our original intent and claim to the Land/soil.

22. This is Notice that your rent for I-25 and RTD right of way usage within said Section 21 is one ounce of silver per day per vehicle. Your ADT published is 265k vehicles [trespassing] per day for this segment at roughly six million ounces of silver per day. You are reminded that the exclusion of Section 27 is also part of the fraudulent Rufus Clark sale. The reduction of further trespass on said Section 27 is dependent on your agreement to honor the Public LAW. Otherwise, your exposure is doubled. RTD as a desired use is excluded from the calculations based on support of said Public LAW.
23. Since we are part of the few standing on the Land/soil under last man standing maxim in LAW and due to the fact all corporations exist under ecclesiastical LAW, we will seek dissolution of offending corporations failing to follow public LAW, now including these claims. You can and will be held personally responsible as Agents of the offending corporations for failure to abide by the Public LAW and this trade agreement remedy. It is your fiduciary responsibility to Notify Principals and Agents as Noticed above. A proposed remedy exists below to minimize your financial exposure to your fraudulent use and trespass of our claimed Land/soil.
24. You are reminded that this is First Notice. Failure to Notice Principals and Agents may make you personally liable for these claims. I have identified your living name as well as your corporate title. The trespass terms increase after thirty days upon service of Second Notice, if necessary. At second Notice trespass fee shall be increased from one ounce of silver per use per day to 35,000 ounces per vehicle per day as trespass fee. It is noted that we are aware of the claims made by foreign service providers to the Land/soil as bond claims and that this amount is commensurate with what is charged by your corporations for misdemeanors. Second Notice trespass fee shall be valid until service of Third Notice. If Third Notice is necessary, the claim will cure under the trespass fee of one million ounces of silver per day per vehicle commensurate with felony bond fees. You will be jointly and severally responsible having known the truth, dishonored the living and became complicit of the crimes against mankind.
25. Independent of our claims, said Land Patents and DISCLAIMER cannot coexist as record by operation of LAW as to establish a historical chain of title based on interest to the Land/soil. The fraudulent trespass must be resolved by operation of LAW. Under your Colorado LAW, you have three years from receipt of this Notice to institute your claim against title insurance since you are now made aware of the truth regarding said chain of title and that your fictional entity cannot own Land/soil. If you have not made remedy by the earlier of three Notices served or the three years stated herein, you will be in breach of contract of the Constitutions governing you and subject to removal by the military and sheriff. Acquiescence also entails violation of the instrument described above as public LAW, limiting our claims

to Section 21, extending action to said Section 27. It is your fiduciary responsibility to honor the Public LAW, which will reduce your exposure by more than half.

Proposed Remedy

26. The remedy and claim against UP [old and new] referenced above promotes the interest of those US Citizens that may choose to change their foreign political status in favor of becoming Colorado State Nationals and a return to the Land/soil jurisdiction. We wish to promote the original intent of the founders of this nation of States to inform the community through the unincorporated Combolisk project. To that end, we are willing to reduce the trespass fee [corporations cannot own Land] for the I-25, RTD and surface street use in Section 21 **to one ounce of silver per year** provided the following conditions are met:

- a. This agreement is acknowledged and remains in Common LAW as trade.
- b. The Department Of Transportation promotes the safe use and maintenance of said roads and interstates to the benefit of the public.
- c. Fee of **one ounce of silver per year** is paid annually in advance [first year due upon receipt of this Notice].
- d. Michael Leigh Macgowan and Kimberly Ann Peer are granted Land [Quit Claim] for four parcels of Land and access **sufficient for use of said Combolisks** near these lat/lon markers in Right of Way, COUNTY OF DENVER (39.683603 N,-104.939735 W), COUNTY OF PUEBLO (38.311813 N,-104.615180 W), COUNTY OF EL PASO (38.814480 N,-104.822712 W), and COUNTY OF BOULDER (40.000089 N,-105.258487 W). These Land claims shall be of sufficient size and access to promote Combolisk use and access.
- e. Two parcels are quit claimed to Michael Leigh Macgowan and Kimberly Ann Peer, NW ½ NW ¼ Section 26 NW ¼ Section 27 of Township 19 South Range 68 West from 6th Principal Meridian, Fremont County, Colorado. Said Parcels are listed as STATE OF COLORADO and unused due to restricted access from the Arkansas River. It is hoped this Land can be developed with technologies to offset electrical use of Combolisks.
- f. Said Land are claimed from the STATE OF COLORADO and its sub-corporations. If there is no rebuttal of this Notice, acquiescence is agreement and the claims become cured by last man standing, described treaties and Biblical value to bring the fraud forward.
- g. This remedy includes this formal request for you to produce under Federal Freedom of Information Act and Colorado Open Records Act. You are obligated to produce any contract involving me as a living man under your LAW, prohibiting my described use of Land/soil for trade, as described outdoor speech broadcast structures, as my unalienable pursuit in the profession of broadcast operator in the tradition of Paul Revere's ride. A failure to produce said artifact negates any jurisdiction to any of your private LAW courts. Any officer or Agent of your corporations hindering this described profession without said contract is evidence of treason against said unalienable rights as protected under the Federal government service contracts.
- h. A wet stamped letter of intent to accept this remedy by Agent dated within thirty days of service of said First Notice will stay service of Second Notice and reasonable progress toward trade agreement.

We [Colorado State Nationals] don't have a contract with any incorporated entities "doing business as" the Municipal Corporation of the District of Columbia, the United States, Inc. or THE UNITED STATES OF AMERICA, etc. Our contracts are with the actual Principals; the Holy See, Westminster, and the British Monarch. These Principals are 100% responsible for the actions, debts, and failure of these chartered entities to perform according to their contracts and obligations and all the harm; physical, and economic, inflicted upon our lawful Persons and property by these foreign incorporated "service: organizations operations on our shores.

Any unlawful conversion is; among other crimes: a)unlawful Breach of our National Trust; b) False claims against our land and false issuance of Titles related to our land holdings; c) unlawful and illegal probate of our individual estates; and , d) unlawful and illegal crimes of personage resulting in copyrighting our Trade names as the names of British Territorial franchise corporations and the creation of Municipal Public Charitable Trusts, Public Utilities, and Cestui Que Vie "gift" ESTATE trusts operated "in our names".

If you have any specific Lawful rebuttal to the facts described herein, any such notice must be wet-signed (autographed) by your authorized Agents under Penalty of Perjury and submitted via return receipt to the Postal Location of Michael Leigh Macgowan [©] referenced below within thirty (30) days of the Notice's post-mark date. Any unlawful types of response including; but not limited to; Lawfully threadbare narrative, the coloring of a living Colorado State National with a fictional political status like "Sovereign Citizen", or attempted Postal delivery to YOUR "federal government's domestic" area is considered a Lawful nullity and will not be responded to.

To remove your personal liability, under Motu Proprio, having been Noticed the truth in the form of an affidavit, you must respond within the stated time with your statement in support of this Notice and provide a copy of your Notice to Principals.

We, Michael Leigh Macgowan, man, and Kimberly Ann Peer, [wo]man, are Colorado State Nationals, do affirm and say that we have read the above Testimony in the form of Affidavit and do know the contents; to the very best of our knowledge and belief; to be true, correct, complete, and not misleading. It is the truth, the whole truth, autographed on Fremont County, Colorado this _____ in the Year of Our Lord, Twenty-twenty-three.
